I have been assigned to this file to investigate and provide a recommendation if necessary. Since this was filed in April 2023, I want to confirm that the issue still exists. Is the berm still in place on SE 03-27-01 W3 along the north side of TWP Road 270 to block and divert water east down the RM road ditch?

Regards,

**Riley Prokopchuk** - P.Tech

**Subject:** Re: Update

Oh and the bathroom floors, baseboard and new toilets happened the weekend before. I'm getting a 5 inch floor drain insert to make up for the change in flooring thickness and will be finding the drain cover options.

Hello! I painted the lunch room last weekend (other than fridge and cabinets for same time as floor) but did not get to the floor yet. I'm away for this weekend so returning the following weekend for lunch room floor installation. I am there tonight however for the bathroom fans and eyewash station replacement before I leave for a few days. The eyewash station was brittle and broke as I was removing it so I got an identical replacement. I left a note there for them. Carpet is in so I will schedule that after the following weekend.

Hey Devin: just checking in – wondered how things were coming along.

We have both council meetings next week – so thought maybe we could give them an update.

Thanks - Denise

Update - Jared @ Dimage

- has light fixtures now
- been busy with kids hockey & basketball playoffs
- will be starting this weekend March 7-8-9

Jared - March 10/25  
- half of new lights installed this past weekend..
